SUMMARY

I am Rajat Kumar, an enthusiastic and detail-oriented MCA graduate with a strong interest in Frontend Development. I specialize in React.js, HTML, CSS, and Tailwind CSS, and have developed full-stack projects including Job Links – a job portal – and Micgram, a social platform inspired by Instagram.

I have completed an internship at Calls Master, where I gained hands-on experience working in a professional environment and sharpened my problem-solving and UI design skills. Passionate about building intuitive and responsive user interfaces, I am actively seeking an opportunity to begin my career in a dynamic company where I can learn, contribute, and grow as a frontend developer.

EXPERIENCE

Intern

Calls Masters

March 2025 - Present, Vikaspuri New delhi

- Developed strong foundational skills in JavaScript and React by solving real-world coding challenges and hands-on tasks. Built and integrated reusable UI components using React, contributing to faster and more efficient front-end development.

PROJECT

Snapgram - Instagram clone

youtube • [micgram.netlify.app](#)

- Built a social media web app inspired by Instagram where users can sign up, post photos, and view others' posts.
- Used **Appwrite** to manage user login/signup and store uploaded images securely.
- Designed a clean and responsive interface using **Tailwind CSS**, making it work well on both mobile and desktop screens.

Job Links-Full Stack Job Portal

Calls Masters • [job-links.onrender.com](#) • April 2025 - June 2025

- Created the backend using **Node.js** and **Express** to handle job data and user actions.
- Used **MongoDB** to store job listings, user profiles, and applications.
- Added **login system** with different roles (like student, recruiter) using **JWT** and **Redux**.
- Designed a **mobile-friendly website** using **React**, so users can access it easily on any device.

Spotify Home Page Clone

YouTube • [home-page-clone-spotify.netlify.app](#) • February 2025 - February 2025

- Recreated the look and layout of the official Spotify homepage using **React**.
- Used **component-based structure** to build sections like header, hero, and feature highlights.
- Styled the page using **Tailwind CSS** for a clean and modern design.
- Made the layout **fully responsive**, so it looks good on mobile, tablet, and desktop devices.

EDUCATION

Master of Computer Applications in Computer Science

Himachal Pradesh University Shimla • Himachal Pradesh • 2025

Bachelor of Computer Applications in Computer Science

Government College Bilaspur • Himachal Pradesh • 2023

CERTIFICATIONS

Javascript Algorithms and DataStructures

[freecodecamp.org](#) • 2025-02

- Learned the basics of JavaScript programming.

Responsive Web Design

[freecodecamp.org](#) • 2025-01

- Gained hands-on experience with HTML and CSS.

SKILLS

Skills: JavaScript, React, HTML5, CSS3, Responsive Web Design, Tailwind CSS.
